McLaughlin Meadows, High River, Alberta

A truly one-of-a-kind property! Designed by Bernd Hermanski Architect, this energy-efficient, architecturally significant home is a testament to modern, sustainable living. Situated across from a picturesque park, this is a rare opportunity to own a custom-built masterpiece with unparalleled security.

Built Slab-on-Grade for Peace of Mind: Forget the stress of the 2013 flood & potential basement issues. This home is uniquely constructed slab-on-grade, specifically designed to withstand another 100-year flood event, offering absolute peace of mind in High River.

Striking & Durable Exterior: The home presents a bold, contemporary aesthetic with its incredibly durable, low-maintenance corrugated metal exterior & sloped metal roof—both engineered to withstand severe weather. The look is softened by natural wood soffits & exposed beams. The expansive yard includes minimalistic landscaping, a greenhouse, & an oversized, double-detached insulated garage.

Exceptional Eco-Friendly Features: Built for efficiency, the home features a high-efficiency Boiler System for the whole-house in-floor heating (under all concrete surfaces), an HRV system for fresh air & humidity control, & a cozy wood-burning stove in the main living area.

Interior Design & Main Floor Highlights:

â€¢ Architectural Excellence: The open-concept, two-story layout is defined by dramatic exposed wood beams, exposed ducting, & sleek steel-framed windows. The open wood staircase & polished concrete floors reinforce the architectural aesthetic.

â€¢ Kitchen: A minimalist, industrial-inspired kitchen boasts concrete countertops, a contrasting butcher block island, large sit-up island, open shelving, & a large walk-in pantry.

â€¢ Four-Season Sunroom: A bright, heated sunroom with a sink & exterior access extends from the kitchen, perfect for the avid gardener.

â€¢ Main Floor Primary Retreat: The primary bedroom features a unique Jack & Jill ensuite with a stand-up shower, soaker tub, & access to a private, fenced outdoor courtyard that includes a rough-in for an outdoor shower.

â€¢ Functional Spaces: The main floor also includes a dedicated office/guest room overlooking the park, a spacious mudroom with storage, & a separate utility/laundry room with high-end Miele washer & dryer & a utility sink.

Upper Level Comfort (Wool Carpet Throughout):

The second level is open to below, maximizing the heat from the wood stove. This level offers a large bedroom overlooking the park, two additional generously sized rooms - one of which could be a dedicated family room, a full bathroom with double sinks & a convenient laundry chute, & a large storage/playroom tucked under the sloped roof.

Unmatched Lifestyle:

Live in a custom home where cutting-edge design meets practicality & environmental consciousness. Enjoy a safe, durable, & energy-efficient lifestyle built on solid ground.
